

# **A Two-day Residential Training Programme on Safeguarding and Effective Management of Hazardous Chemicals in Industries**

**Approved by DISH : Section 111-A (ii) of the Factories Act, 1948**

## **Technical Partners**

## About GIDM

The Gujarat Institute of Disaster Management (GIDM) is registered as an autonomous society under the Government of Gujarat. The Institute has been entrusted with the responsibility of human resource development, capacity building, training, research and documentation in the field of Disaster Management. GIDM has received approval from DISH under Section 111-A (ii) of the Factories Act, 1948.

## PI Foundation Trust

PI Foundation Trust, a Charitable Trust set up on 4th July 2012 has been working consistently with a philosophy to create equity in society through values of Caring, Sharing and Growing at its core. We are committed to align impact of our programs towards Sustainable Development Goals and contribute in the process of Nation Building.

## Why Build the Capacity ?

Gujarat, one of India's most industrialized states, has witnessed rapid growth in the chemical industry, leading to an increased risk of chemical accidents. Ensuring the safe management of hazardous chemicals is critical to protecting workers, surrounding communities, and the environment. Enhancing the knowledge and skills of industry professionals involved in the storage, handling, and transportation of hazardous chemicals is essential for minimizing risks and ensuring compliance with safety standards.

The **'Safeguarding and Effective Management of Hazardous Chemicals in Industries'** program is designed to address these challenges by providing comprehensive guidance on chemical hazard management, risk mitigation, and best practices to enhance industrial safety.

## Learning Objectives

- Enhance participants' understanding of the potential risks associated with hazardous chemicals in industrial settings.
- Provide knowledge about the legal and regulatory frameworks governing the safe management of hazardous chemicals.
- Introduce best practices for the safe storage, handling, and transportation of hazardous chemicals.
- Develop skills to identify, assess, and mitigate chemical hazards in the workplace.
- Prepare participants to effectively respond to chemical emergencies and manage crisis situations involving hazardous chemicals.
- Foster a culture of safety and responsible chemical management within the participating organizations.

## Program Coverage

The 'Safeguarding Hazards and Effective Management of Hazardous Chemicals in Industries' training program aims to assist industries in preventing and controlling chemical accidents. It intends to provide guidance on identifying major chemical accident hazards, ultimately enhancing the overall safety performance of industries.

## Key Topics

- Regulatory Framework
- Safe Handling and Storage of Hazardous Chemicals
- Tools for Hazardous Chemical Management
- Chemical Exposures and Toxicology
- Table Top Exercise

## Target Participant

- Operations, Maintenance, Technical Services, and Technology Transfer personnel.
- Health, Safety, and Environment (HSE) officers involved in risk assessment and management.
- Plant managers and supervisors overseeing chemical storage, handling, and transportation.
- Individual candidates aspiring to develop career in industrial safety.

## FACULTY

The faculty would be from Industry, Academia, DISH, GIDM and GPCB

## Program Details

Date : 6-7 March 2025  
Duration : 2 Days  
Venue : GIDM, Gandhinagar

**Registration :** Interested participants may register for the program by scanning the provided QR Code.

**No Course Fee**

**Limited Seats Available**
