# FITNESS CENTRE

---

The Institute has state-of-the-art fitness centre which combines the best of equipment to meet your fitness needs.

## The Fitness Centre is divided into 4 parts:

- 1.**Strength Section:** Here you will find separate machines to strengthen each major muscle group of your body. In addition, there is a functional trainer to provide variety in your workouts.
- 2.**Cardio Section:** This section has treadmills, cycles, alternate trainer and stepper to help you burn calories through cardiovascular exercises.
- 3.**Free Weights:** A combination of dumbbells, plates, rods and benches, you can do basic exercises like chest press, shoulder press etc. along with more compound exercises.
- 4.**Stretching:** A separate section within the fitness centre can be used for warm up and stretching routines along with cool-down after your workout.

Trained staff is available in the morning and evening hours to assist you during workouts. Please contact GIDM reception for further information

## **Body Composition**

As part of your stay for the event, a body composition check has been scheduled to provide you with a status of your existing fitness levels. This 5-minute test will provide you with useful information on three major components of your body which is fat, muscle and water. It will also provide details about muscle and fat levels in various segments of the body.

Other information like BMI, BMR (Basal Metabolic Rate), Abdominal Circumference, Visceral Fat etc. will also be provided as part of this assessment.

With considerable knowledge about existing body composition, you can plan your future exercise and diet routines accordingly.

We hope you enjoy using these services and have a healthy stay at GIDM.

## **Fitness Centre Timings**

### **Morning**

Monday to Friday: 6:00 AM to 10:00 AM
