

One Day Training Program on Orientation to the Principles of Disaster Risk Management and Fire Safety

Organized by
**Gujarat Institute of Disaster Management
For GEER Foundation**

(Tentative date: Monday, 27th May 2024, 1100 to 13:00 hrs)

Concept Note:

With the advent of **Sendai Framework for Disaster Risk Reduction** (SFDRR 2015-2030), the paradigm shift from **Disaster Management** to **Disaster Risk Management** has materialized in the true sense; it is no more relegated to the pages of hefty academic journals and reports. Although much effort has been put into snowball the effect from the international level, lots of work needs to be done at the local level, and to effectively be able to manage disaster risks or even reduce disaster risks, one needs to understand disaster risks. This becomes the guiding light of the following proposed set of orientation /sensitization programs.

There is a need to orient the ground level front line staff at large to the principles of Disaster Risk Management. This would serve two purposes; First, the programs would sensitize the concern staff members and orient them to understand their role in Disaster Risk Management; second, such program(s) would encourage the staff members to develop innovative ideas and skills for Disaster Risk reduction.

Objectives:

1. Understanding Basic Concept and Terminologies associated with DRM field;
2. Understanding International Framework and National Framework;

3. Understanding Risk Identification, Information & Communication in Capacity Building/Developmental Programs;
4. Concept of Community-based DRM and Risk-Informed Development Planning.

Target Participants:

Staff members of GEER Foundation

Methodology:

The training has been designed to be in interactive lecture sessions followed by questionnaire sessions. This program will be conducted by GIDM at the GEER Foundation.

Resource Person:

Dr. Chintan Pathak, APPM, GIDM

Mr. Ankit Rathod, TSPM, GIDM
