

Making Cities Resilient (MCR) 2030: Prioritising DRR Actions & Plans in Gujarat (for Manasa Nagarpalika)

Background

The Making Cities Resilient 2030 (MCR2030) is a unique cross-stakeholder initiative for improving local resilience through advocacy, sharing knowledge and experiences, establishing mutually reinforcing city-to-city learning networks, injecting technical expertise, connecting multiple layers of government, and building partnerships. Through delivering a clear roadmap to urban resilience, providing tools, access to knowledge and monitoring and reporting tools, MCR2030 will support cities on their journey to reduce risk and build resilience.

About Manasa

Mansa town falls in Gandhinagar District and is around 40 kms from Gandhinagar. It is a Municipality headed by a Chief Officer. The population of Mansa is around 30 thousand as per 2011 census. It is registered in MCR 2030 in 2023 and has completed the preliminary disaster resilience scorecard assessment. They have worked on energy saving project using a unique zig zag concept and is now working on interlinking of lakes in Mansa.

Rationale of the Workshop

Using the Preliminary Scorecard, it is easy to assess the risks in the city. These risks can be addressed through various measures like structural, non-structural, policy, legal, capacity building activities etc. It is required that these scorecard assessment are well converted into DRR actions and ultimately into plans. As Mansa Nagarpalika officials completed their scorecards, this upcoming workshop will help them to streamline their projects effectively.

*Workshop on Implementing MCR 2030 at Mansa Nagarpalika
dated on 12th-13th September, 2023*

Organisers

- **UN Office for Disaster Risk Reduction (UNDRR) Office for Northeast Asia (ONEA) & Global Education and Training Institute (GETI):** The UNDRR Office for Northeast Asia & Global Education and Training Institute (UNDRR ONEA & GETI) was established in 2010 to develop a new cadre of professionals in disaster risk reduction and climate change adaptation to build disaster resilient societies.
- **Gujarat Institute of Disaster Management (GIDM):** GIDM has been entrusted with the responsibility of Human Resource Development, Capacity Building, Training, Research and Documentation in the field of Disaster Risk Management (DRM). GIDM, through its capacity building programs, is fostering the concept of Risk Informed Planning and Disaster Resilient Sustainable Development.

Objectives

- To understand the detailed disaster resilience scorecard
- To assess the gaps, findings and achievements at the present stage
- To develop the future course of actions and prioritise them

Course Pedagogy

The training course would be offered in professional and innovative manner. Conducive conditions will be created for the participants to engage in meaningful dialogues and discourses on the course content. The training will be held in person, facilitated by expert trainers from the academia, international speakers and many more. The workshop will include ppts, group exercises, and discussions. The workshop is designed in such a way that Mansa city officials will be able to integrate aspects of disaster risk management in their policies and day to day administrative activities.

Target Participants

The workshop is organised for the officials of Manasa Nagarpalika and all other line departments of Manasa. Apart from government officials this training program is for NGOs, civil society, private sector, etc. The expected number of participants are around 20-25

Venue

- The workshop is organized at Nagarpalika Hall.
- Date: December 22, 2023 (Friday)
- Time: 10:30 am to 03:00 pm

Co-ordinator

- **Mr. Shubham M. Daberao, RAPC, GIDM**
- Email: rapc2-gidm@gujarat.gov.in
- Mobile: 7574800260
