

Tentative Schedule of Virtual Training Programme

On

Lightning Risk Management & Safety Measures

Date: 09th July 2024

Time: 14:30hrs - 16:30hrs

1. Programme Schedule

| Session | Topic | Speakers | Time |
|---------|---|---|--------------------|
| - | Opening Remarks and Introduction | GIDM | 10 -15 minutes |
| 1. | Introduction to Lightning & Thunderstorm Risk | Prof. Manoranjan Mishra, Professor - Fakir Mohan University, Balasore, Odisha | 45 minutes |
| 2. | Lightning Risk Mitigation & Safety Awareness | Col. Sanjay Srivastava, Chairman – CROPC, New Delhi | 45 minutes |
| - | Q&A and Closing Remarks | GIDM | 10 – 15 minutes |

2. Session Plan

| Sr. No | Session | Details | |
|--------|-------------------------------------|--|--|
| 1. | Session-01 (14:45hrs - 15:30hrs) | Understanding the science behind lightning. Understanding the conditions necessary for lightning formation. An overview of the different stages of a lightning strike. Different types of Lightning and its risks Common Myths about Lightning | |
| 2. | Session-02 (15:30hrs - 16:15hrs) | Factors influencing lightning strikes like geographical location, weather patterns, topographical features, human-made structures. Assessment tools and methods. | |

| Changing climate patterns influence the frequency and intensity of lightning strikes. Personal safety tips during thunderstorms Explaining the structural safety measures in context to lightning. Recognizing safe and unsafe locations during a thunderstorm. Community and organizational best practices. Proper response and action plans in the event of lightning. | |
